Research and Development

Trendsetting and brand focused – research and development form the heart of DR. SCHNELL Chemie GmbH. They are the core of innovative product ideas and make up the starting point for the continued development of existing products. We continuously invest a high share of sales in state-of-the-art laboratory technology and training courses for our employees to make sure we are always working with the latest scientific findings.

Together with the consultants and service staff, we are constantly monitoring market development internally. We are thus able to identify future trends and develop the appropriate solutions very early. The primary objective is to create products today for the market of tomorrow.

We continuously work with alternative ingredients, optimized raw material combinations and use latest manufacturing processes to meet these goals while ensuring maximum efficiency. For years the approach has allowed us to serve the market for professional cleaning products in short intervals with new, trend-setting innovations.

Quality

DR. SCHNELL brand products must meet every aspect of the highest quality standards in particular environmental impact, but also for the health and material compatibility and excellent product efficiency. DR. SCHNELL has a quality management system in accordance with DIN EN ISO 9001:2008.

Sustainability and the environment – actions speak louder than words

Our environmental protection image is reflected in numerous measures – ranging from raw materials purchasing to all internal processes delivery all our products. Our company is certified for environmentally conscientiousness along with our products.

Our environmental management system has been certified since 1998 in accordance with DIN EN ISO 14001:2004

As a participant in EMAS, the community system of the European Union for eco-management and environmental testing, DR. SCHNELL is listed in the register of environmentally-friendly production facilities. Our environmental policy contains a precise presentation of our environmental activities and environmental data, such as resource and energy consumption, emissions, waste, etc.

DR. SCHNELL is a member of A.I.S.E. Charter for Sustainable Cleaning. The voluntary initiative from European manufacturers of cleaning and maintenance agents takes into consideration the entire life cycle of products in the supply chain from raw material purchasing to use and certifies companies that continuously improve the environmentally relevant parameters.

Quality, Sustainability and the environment

Information

Wire leben Hygiene!

“In addition to high quality products DR. SCHNELL provides one-of-a-kind service throughout Germany. Our years of experience in professional cleaning and hygiene enable us to assist our clients in getting their work done.”

Dr. Wolfgang Schnell and Dr. Thomas Schnell – Managing Directors of DR. SCHNELL Chemie GmbH

Quality, Sustainability and the environment – actions speak louder than words

Service

It is not only reliable product quality, which is crucial for the DR. SCHNELL brand, but also the service quality provided by the highly motivated DR. SCHNELL consultants, application engineers and technicians.

DR. SCHNELL has highly trained cleaning specialists for hospitals, schools, homes, hotels, commercial kitchens, food processing plants, wholesale stores, industrial plants, workshops as well as public transportation – from trucks, buses, and trains to the German Railway’s advanced ICE trains. DR. SCHNELL manufactures top products for all cleaning tasks. The consultants prepare individual cleaning and disinfection plans using the best economic and environmental aspects along with budgeting for product consumption, the cleaning staff is educated and trained, to keep cleaning costs low.

The DR. SCHNELL consultants are constantly certified and educated in the company’s training centre ALEGRIA GmbH & Co. KG. Primarily professional trainers work in the modern training centre at ALEGRIA in Munich and Hamburg. ALEGRIA regularly conducts seminars and workshops for all employees in cleaning profession – we also have the option of on-the-job training (e.g. for cleaning staff in hospitals and professional kitchens). ALEGRIA also conducts HACCP hygiene checks and hygiene instructions upon request.

Sanitary cleaners & wet area cleaning

**Sanitary cleaner with lime scale and dirt block formula**
- Removes daily sanitary deposit scales.
- Suitable for the effective cleaning of all acid-resistant materials, such as sinks, tiles and countertops.
- Ecological curiosity because of natural acid.
- Includes granulation.
- Can be used with all cleaning methods, including the soft foam cleaning.
- Dissolves also the blockage in sanitary routed.
- Ideal for hard water (7.00 %).
- Concentration: use undiluted or diluted up to 2.5 % (dilute concentrate in water). 

**3-phase sanitary cleaner & lime scale solvent**
- Removes lime scale, saponification and some waterscale; only in sinks, bath tubs, shower enclosures.
- RH (70 %), acid-resistant.
- Includes granulation.
- Can be used with all cleaning methods, including the soft foam cleaning.
- Neutral pH, unlike most commercial lime scale removers.
- For use in cleaning processes, even soft foam cleaning.
- RH (70 %).
- Concentration: use undiluted or diluted up to 0.5 % (dilute concentrate in water).

**Neutral glass sanitary cleaner**
- New high-performance formulation – even easier for economical cleaning.
- Removes soap, cosmetics residues, organic dirt, water stains.
- Sanitary cleaner specially for marble baths and delacite surfaces.
- Ease scale formula prevents dirt deposits on surfaces.
- Recommended for marble.
- Environmentally friendly containing no chlorine, phosphates or acids.
- Concentration: 0.125 % up to 5 % (dilute concentrate in water).

**Acid sanitary basic cleaner**
- Removes extremely stubborn mineral scale such as limestone, lime scale — the synergistic combination of acids also simultaneously cleanses rust and limestone decontamination.
- The product is particularly effective on all metallic surfaces.
- RH (70 %).
- Includes rust scale, lime scale and some waterscale.
- Ideal for use with the DR.SCHNELL Foster Cannon.
- Also suitable for use on in effect fittings, proper application, such as spraying thoroughly with plain water, is required.
- Concentration: use diluted from 10 % up to 100 % (dilute concentrate in water).

**Liquid surface disinfection concentrate for sanitary areas**
- Liquid surface disinfection concentrate for sanitary areas.
- Biodegradable and cleaning of all acid-resistant surfaces.
- Basic soil and maintenance cleaner for sanitary and pool areas.
- Brushes off mineral deposits, such as lime, perfectly removes organic contaminants such as oils from your skin.
- Also effective against lappandis and pathogen.
- RH and RR (70 %) diluted up to 5 %.
- Application concentration: MRR: 2.5 %, 10 min, 1.5 % 30 min, 1.5 %, 60 min.
- Also suitable for use on intact fittings; proper application, such as rinsing thoroughly with plain water, is required.
- Concentration: use undiluted (10 %).

**Marble cleaning and care**

**_Carrara_**
- Ideal for polishing brass, aluminium, copper, stainless steel, synthetic material and stones.
- For removing mineral deposits from mineral surfaces.
- Recommended for marble.
- Environmentally friendly, no phosphates, acids or alkalis.
- Concentration: use undiluted.

**_Instant neutral cleaning power_**
- For removing mineral deposits from mineral surfaces.
- For removing soil, grease, rust, food residues, lime scale and encrustations.
- Polishing power consists of especially gentle natural enemies.
- Environmentally friendly, no phosphates, acids or alkalis.
- Concentration: use undiluted.

**_Cleaning emulsion – polishes and protects_**
- Ideal for polishing brass, aluminium, copper, stainless steel, synthetic material and stones.
- For removing soil, grease, rust, food residues, lime scale and encrustations.
- Recommended for marble.
- Environmentally friendly, no phosphates, acids or alkalis.
- Concentration: use undiluted.

Special products
System: Technology and cleaning products
System: Scents and equipment

Surface cleaning

Fast, effortless cleaning
- Removes grease and oil dirt, nicotine, fresh pen residues, soot and atmospheric dust
- Suitable for all water-resistant materials, coated, uncoated and anti-static flooring
- Optimizes the functionality of modern cleaning processes:
  - One-step working with folding technique
  - Cloth and mop cleaning method
  - Systems with pre-saturated cleaning cloths
- Stronger surfactant combination – excellent cleaning capability and high dirt dissolving power in one operation
- Supports the effectiveness regarding dirt-collecting capacity, especially of microfibers
- Concentration: 0.25 to 5 %

**GLASS**
- Removes atmospheric grime as well as light coats and oil residue.
- Scented for manual and machine use.
- Dust resistant and smudge free.
- Softens dry quickly after cleaning.
- Low foam.
- Concentration: 0.5 to 1 % (dilute concentrate in water).
Magical Champions!

Ready to use - the magic formula for a higher performance!
Ready to use spray cleaners for quick and easy sanitary, surface and maintenance cleaning.
### Graffiti remover

**Gel graffiti remover**
- **Uses:** for the removal of nearly all graffiti colours
- **Benefits:** Excellent adherence on vertical surfaces, therefore longer reaction time and better cleaning effect
- **Fragrance free**
- **Concentration:** use undiluted
- **Order No.:**
  - 5 litre canister: 30582

**Liquid graffiti remover**
- **Features:** Quick and effective
- **Applications:** wide range of application possibilities
- **Fragrance-free**
- **Concentration:** use undiluted
- **Order No.:**
  - Carton of 6 x 500 ml bottles: 00589
  - 5 litre canister: 30587

**Shadow remover**
- **Features:** Free of chlorinated hydrocarbons for mineral surfaces (mural walls, stone surfaces)
- **Effects:** removes nearly all graffiti colours
- **Benefits:** Deep-acting
- **Fragrance free**
- **Concentration:** use undiluted
- **Order No.:**
  - 5 litre canister: 30584
  - 10 kg canister: 20585

**Bitumen remover**
- **Features:** Free of chlorinated hydrocarbons for mineral surfaces (mural walls, stone surfaces)
- **Benefits:** Effectively removes all bitumen-based graffiti colours
- **Applications:** good on vertical surfaces
- **Concentration:** use undiluted
- **Order No.:**
  - 5 litre canister: 30583

### Vehicle cleaning

**External acidic cleaner — winter**
- **Features:** For machine and manual cleaning of vehicle bodies
- **Benefits:** Particularly recommended for winter cleaning requirements
- **Order No.:**
  - 5 litre canister: 40554
  - 1,000 kg container: 40555

**Alkaline exterior, engine and undercarriage**
- **Features:** For all water and alkaline-resistant surfaces
- **Benefits:** Can be used in machines and for manual cleaning
- **Order No.:**
  - 200 kg barrel: 40512
  - 1,000 kg container: 40570

**External cleaner for rail vehicles**
- **Features:** For mechanical cleaning of moderately to heavily soiled exterior surfaces
- **Benefits:** Outstanding cleaning performance for soiling containing brake dust and other grime typical of rail vehicles
- **Order No.:**
  - 1,000 kg container: 40100

**External cleaner without hydrochloric acid**
- **Features:** For mechanical cleaning of moderately and heavily soiled exterior surfaces
- **Benefits:** Free from hydrochloric acid, contains oxalic acid, dissolves brake dust
- **Order No.:**
  - 1,000 kg container: 40112

**Window rinse aid for external vehicle washing-bays**
- **Features:** For cleaning external red oil·
- **Benefits:** Effective in washing bays following the final rinse cycle
- **Order No.:**
  - 30 kg canister: 40511
  - 1,000 kg container: 40515
Car washing

**Gentle cleaning and care for enamel finishes**
- High performance shampoo
- Protects enamel, adds a new lustre to the enamel finish
- Suitable for washing by hand and for automatic car washes
- Biodegradable in compliance with OECD regulations
- Concentration: 1:20 to 1:100 (1 part of TECAR AUTOSHAMPOO to 20 – 100 parts of water)

**For a clear view**
- Removes oily, greasy stains and insect residues without smearing
- For car windscreens, windows, mirrors, chrome and stainless steel
- Used as a cleaning booster in your car’s windshield washer system
- Diluted 1:1 in summer as an additive for the windshield washer system
- Concentration: use undiluted

**The perfect stain remover**
- High-potency stain remover for cleaning car interiors
- For preparing used cars, e.g., for carpets, textile seats, etc.
- Removes oil, grime and stains from textiles
- Also suitable for quick removal of chewing gum residues
- Organochloride- and CHC-free
- Concentration: use undiluted

**Neutral cleaner for interiors**
- High cleaning performance – removes all kinds of soiling, such as oil, grease, nicotine, dust, fresh ball-point pen marks and stamp ink, etc.
- Material compatibility on all waterproof surfaces (plastic, metal, stone, glass)
- Neutral and gentle to the skin
- Application concentration: 0.25 to 1.5 % (dilute with water)

**For the environment and for safety**
- Absorbs all liquids in seconds (e.g., for containment of oil damage)
- Simplifies the disposal of hazardous liquids
- Concentration: use undiluted

Special products

**The top product for workshop cleaning**
- Removes oil, grease, dust and brake dust quickly and thoroughly from workbenches, tools, hydraulic systems, workshop floors, exhaust manifolds, components, engines and engine bays
- Suitable for all water- and alkali-resistant surfaces
- Cleans out the grease trap by rapid de-emulsification
- Organochloride- and CHC-free
- Highly concentrated and extremely economical
- Concentration: between 0.25 and 2.5 % (dilute concentrate in water)

**Neutral cleaner for interiors**
- High cleaning performance – removes all kinds of soiling, such as oil, grease, nicotine, dust, fresh ball-point pen marks and stamp ink, etc.
- Material compatibility on all waterproof surfaces (plastic, metal, stone, glass)
- Neutral and gentle to the skin
- Application concentration: 0.25 to 1.5 % (dilute with water)

**For the environment and for safety**
- Absorbs all liquids in seconds (e.g., for containment of oil damage)
- Simplifies the disposal of hazardous liquids
- Concentration: use undiluted

The innovative dosing and mixing unit with chip recognition for housekeeping and for building cleaning
- Reduction of setup and transit times
- High usage assurance due to the RFID microchips: necessary data from the cleaning plan are read out by the iDos dosage system
- Dosage security due to automatic bottle fill and level detection
- Excellent cleaning results based on optimal matching of the application concentration to the given circumstances in the building
- Dosage adjustments are done by a DR. SCHNELL consultant
- No contact with product concentrate
- Choice of two different fragrances
- Maximum protection of the environment due to reduced use of chemicals

Automatic dosage system
- Individual filling because of chip recognition
- Automatic iDos bottle fill detection and level detection
- Data storage to create statistics

Acid sanitary cleaner
- Cleaning of water- and acid-resistant surfaces and networks
- Removes quickly and effectively all mineral scaling as well as calcium and acoustic residues

Neutral sanitary cleaner
- Suitable for all high-quality, acid-sensitive bathroom furniture and surfaces
- Special formula to prevent limescale build-up

Room Cleaning
- Suitable for all wipeable surfaces
- Removes streak-free dust, fingerprints, coffee-cup rings, etc.

Flexible satellite
- For carrying all the necessary cleaning materials
- Individual equipping possible
- Easy to equip and move around for the cleaning staff

Individual flavour sensations and fresh cleanliness

Carton of 12 x 600 ml hand-sprayers (container only)  order No. 00851

Acid sanitary cleaner
Carton of 12 x 600 ml hand-sprayers (container only)  order No. 00852

Sensitive
Carton of 4 x 1 litre bottles  order No. 00594
**Floor**

**Wiping care**

**High performance floor care**
- Cleaning, maintenance and revitalisation in one operation
- Suitable for all flooring materials and surface finishes
- Certified in accordance with DIN 18032, safe to walk on
- Suitable for anti-static coatings when used properly
- Neutral pH 9.5

**FloorTop**
- Concentration: 0.5 to 25% (dilute concentrate in water)
- Can be used in 2-stage wet wiping method and for machine cleaning
- Cleans and preserves in one operation

**FloorTop**
- Concentration: 0.25 to 10%
- Suitable for all water-resistant and coated hard floor surfaces
- For moist, wet mopping, machine cleaning, for spray cleaners and for spray cleaning
- Can be used with all cleaning methods, including spray cleaning
- Suitable for anti-static coatings when used properly

**FloorTop eu**
- Concentration: 0.25%
- No build up of protective coatings, highly transparent protective coating
- For moist, wet mopping, machine cleaning, for spray cleaners and for spray cleaning
- Certified in accordance with DIN 18032 for use in indoor sports centres
- Suitable for gymnasiums and sports halls, hospitals and nursing facilities
- Tested according to DIN 18032, safe to walk on

**Powerful wipe clean care**
- Cleans and preserves in one operation
- Acid-resistant
- Recommended for: natural and artificial stone surfaces

**Wipe clean care**
- Cleans and preserves in one operation
- Neutral
- Contains soap
- Can be used in 3-stage wet wiping method and for machine cleaning
- Tested for traffic areas such asopaks
- Concentration: 0.5 to 3.5% (dilute concentrate in water)

**Intensive care soap and wax polish**
- Cleans and preserves in one operation
- Antistatic, non-slip, contains soap and wax
- Very high filling capacity, ideal for porous surfacing and rubber stabilised coatings
- Produces a silky matt glow, can be polished to high gloss, if desired
- Can be used in 2-stage wet wiping method and for machine cleaning
- Concentration: 0.3 to 25% (dilute concentrate in water)

**Forsan**
- Concentration: 0.5 to 25% (dilute concentrate in water)
- No build up of protective coatings, highly transparent protective coating
- For moist, wet mopping, machine cleaning, for spray cleaners and for spray cleaning
- Certified in accordance with DIN 18032 for use in indoor sports centres
- Suitable for gymnasiums and sports halls, hospitals and nursing facilities
- Tested according to DIN 18032, safe to walk on
Automatic machine cleaner/special products

**Automatic machine cleaner/special products**
- Strong cleaner for all waterproof and alkali-resistant flooring surfaces.
- Can be applied manually onto smaller areas and edges in a 2-stage damp mopping process.
- Prevents the oxidation of iron.
- Ideal for use in industrial cleaner rooms with vehicles and technically clean mopping water.
- Optimal, economical product change with the DR.SCHNELL 50 quick-fill unit.
- Concentration: 2 to 4 % (dilute concentrate in water).

**Soap wipes**
- Especially suitable for fibre cleaning and maintenance of areas with heavy use and traffic.
- Also suitable for the removal application in the exact and wet mopping process.
- Leaves pleasant fruit scent.
- Provides a shine of glass.
- Can be diluted to a high gloss.
- Application concentration: 2 to 4 % (dilute concentrate with water).

**High performance wipes**
- For all normally solid waterproof floor coverings, such as stone, concrete, PVC, rubber and vinyl.
- Cleaning intensive and economical in one process.
- Prevents slipping.
- Maintains colour.
- During a optional and economical with the DR.SCHNELL 50 quick-fill unit.
- Application concentration: 2 to 4 % (dilute concentrate with water).

**Neutral glass cleaner without harmful detergents**
- Particularly suitable for manual cleaning of edges and edging surfaces using a cloth.
- For both smooth and rough surfaces.
- Breath fresh drying.
- Microfibre-free.
- Optimal, economical product change with the DR.SCHNELL 50 quick-fill unit.
- Concentration: 2 to 4 % (dilute concentrate in water).

**Industrial and workshop cleaner**
- For fast and residue-free removal of oil, varnish, brake dust and grease.
- Can be used in high-pressure cleaners and the DR.SCHNELL 50 quick-fill unit.
- Cleans out the grease trap by rapid de-emulsification.
- Environmentally-friendly due to aromatic and aliphatic solvents.
- Contains high-potency water softeners and corrosion inhibitors.
- Concentration: between 0.25 and 25 % (dilute concentrate in water).

**For all waterproof surfaces**
- Especially suitable for special cleaning, final construction cleaning and window cleaning.
- For maintenance and heavy-duty cleaning.
- Contains ammonia as a builder.
- For removing organic stains.
- Concentration: 0.1 % (dilute concentrate in water).

**Cleaning of industrial and workshop floors**
- For all waterproof, solvent- and alkali-resistant industrial and workshop floors.
- Particularly suitable for textile and badly stained floors.
- For removal and machine use.
- Low foams building.
- Concentration: 1 to 1:50 (1 part of FORTE PLUS to 10–50 parts of water).

**Oil/grease solvents, industrial cleaners**

**Oil/grease solvents, industrial cleaners**
- Concentration: 1:10 to 1:50 (1 part of FORTE PLUS to 10–50 parts of water).
- Contains ammonium chloride.
- For maintenance and heavy-duty cleaning.
- Especially suitable for special cleaning, final construction cleaning and window cleaning.
- For removing organic stains.
- Concentration: 0.1 % (dilute concentrate in water).

**Forte Plus**
- For fast and residue-free removal of oil, varnish, brake dust and grease.
- Can be used in high-pressure cleaners and the DR.SCHNELL 50 quick-fill unit.
- Cleans out the grease trap by rapid de-emulsification.
- Environmentally-friendly due to aromatic and aliphatic solvents.
- Contains high-potency water softeners and corrosion inhibitors.
- Concentration: between 0.25 and 25 % (dilute concentrate in water).

**Industrial and workshop cleaner**
- For all waterproof, solvent- and alkali-resistant industrial and workshop floors.
- Particularly suitable for textile and badly stained floors.
- For removal and machine use.
- Low foams building.
- Concentration: 1 to 1:50 (1 part of FORTE PLUS to 10–50 parts of water).

**For all waterproof surfaces**
- Especially suitable for special cleaning, final construction cleaning and window cleaning.
- For maintenance and heavy-duty cleaning.
- Contains ammonia as a builder.
- For removing organic stains.
- Concentration: 0.1 % (dilute concentrate in water).

**Cleaning of industrial and workshop floors**
- For all waterproof, solvent- and alkali-resistant industrial and workshop floors.
- Particularly suitable for textile and badly stained floors.
- For removal and machine use.
- Low foams building.
- Concentration: 1 to 1:50 (1 part of FORTE PLUS to 10–50 parts of water).

**Oil/grease solvents, industrial cleaners**
- Concentration: 1:10 to 1:50 (1 part of FORTE PLUS to 10–50 parts of water).
- Contains ammonium chloride.
- For maintenance and heavy-duty cleaning.
- Especially suitable for special cleaning, final construction cleaning and window cleaning.
- For removing organic stains.
- Concentration: 0.1 % (dilute concentrate in water).

**Forte Plus**
- For fast and residue-free removal of oil, varnish, brake dust and grease.
- Can be used in high-pressure cleaners and the DR.SCHNELL 50 quick-fill unit.
- Cleans out the grease trap by rapid de-emulsification.
- Environmentally-friendly due to aromatic and aliphatic solvents.
- Contains high-potency water softeners and corrosion inhibitors.
- Concentration: between 0.25 and 25 % (dilute concentrate in water).
Gloss Care

**Boosted emulsion with long-lasting glass**
- Cleans and protects waterproof floor coverings
- Forms a non-slip, hard wearing protective seal in accordance with DIN 18356
- Formulated for sealed parquet
- Contains no water-insoluble solvents
- FLOORFIT can be applied for maintenance and reconstruction
- Concentration: use undiluted or diluted up to 10 % (dilute concentrate in water)

**Parquet cleaning and maintenance**

**High-grade premium hard wax, contains solvents**
- Maintains, protects and cleans sealed wooden floors
- High filling capacity
- Enhances the natural colouring of the wood
- Dirt and water-repellent
- Can be used effectively in the spray-cleaning process, can be polished to a high gloss
- Concentration: use undiluted

**Wood and parquet care**
- Prevents and protects
- Non-hygrophilic, neutral ceramic wax
- Non-shiny
- Enhances the natural texture of the wooden surface
- Natural, silk matt gloss
- Concentration: use undiluted

**Basic cleaner**
- Removes old oil and wax protective cover, water-free
- Outstanding penetrating power
- Penetrates quickly, deeply and uniformly
- For use in intermediate cleaning in the spray-cleaning process
- Concentration: use undiluted

Caution! Product and vapours are inflammable! Do not use on PVC or plastic etc.
Observe safety information.

**Pore-fillers/impregnation**

**Impregnation and stain protection for stone surfaces**
- Protects porous, absorbent surfaces from deeply penetrating stains
- Permeable to water vapour, stone remains breathable
- Surface water in natural look
- Water and slip resistant
- Makes cleaning easy
- Concentration: use undiluted

**Deep sealing for light natural and plastic stones**
- Seals depleted and porous floor coverings
- Chemical-resistant
- Adhesive grounding and pore-filler in one
- Permeable to water vapour
- Free of water-insoluble solvents
- Reduces re-soiling
- Emphasizes the natural texture of natural stones
- Concentration: use undiluted

**Spray cleaner**

**Spray cleaner with skid-proof polymers**
- For the renovation of damaged maintenance finishes
- Effortless removal of hard marks and welding marks
- Extends the service life of glossy coatings
- Produces a brilliant gloss
- Applicable to all types of domestic and commercial floors
- Concentration: 15 to 30 % (dilute concentrate in water)

Caution! Product and vapours are inflammable! Do not use on PVC or plastic etc. Observe safety information.
**Coatings**

**Extremely hard-wearing high-performance coating**
- Excellent adhesion
- Extremely high filling and covering capacity
- Contains no resins, waxes
- Specially resistant to alcohol-based disinfectants
- Suitable for dry areas
- Concentration: use undiluted

**Heavy-duty coating for medical facilities with brilliant surface gloss**
- Resistant to all common alcohol-based hard disinfectants
- Excellent adherence capacity on residual floorings
- The drying speed enables fast working
- Excellent durability on all common floorings
- Characteristic gloss is retained throughout the lifetime
- Concentration: use undiluted

**Silk matt high-performance coating**
- Maintains silk matt appearance for the whole lifetime of the surface
- Single component paint coating
- Shakes out visual irregularities beneath the surface
- Easy to use, no risk of “blotching”
- Concentration: use undiluted

**Heavy-duty coating for medical facilities with silky surface gloss**
- Resistant to all common alcohol-based hard disinfectants
- Excellent adherence capacity on residual floorings
- The drying speed enables fast working
- Excellent durability on all common floorings
- Characteristic gloss is retained throughout the lifetime
- Use concentration: use undiluted

**Silk-matt universal dispersion**
- Suitable for all water-resistant, non-slip surfaces
- Highly resistant to all alcohol-based disinfectants
- Very quick drying times and extremely easy workability
- No risk of “cloudiness”
- Excellent economic efficiency in the cost-benefit assessment
- Generally resistant against alcohol-containing hand disinfectants
- Concentration: use undiluted

**Special coating for highly frequented surfaces**
- Generally resistant against alcohol-containing hand disinfectants and surface disinfectants
- High cohesive resistance
- Durable shine gloss
- Excellent durability
- Can be high-speed polished
- Application concentration: use undiluted
**Basic cleaners**

**Universal basic cleaner**
- Perfectly suits all-electric floor coverings
- Removes hard and soft coatings
- Quick, machine-friendly, suitable for use in machines
- Concentration: 1:3 to 1:5 (part of TEMPOXTREME to 3–5 parts of water)

**General basic cleaner**
- Basic cleaning without mixing
- Deep pore cleaning, scalable for most materials
- Suitable for machine cleaning
- Extremely fast dissolving power
- Concentration: 1:4 to 1:9 (part of TEMPOLUS to 4–9 parts of water)

**Deep-penetration coating remover**
- Scalable for all water-resistant as well as adhesive-free floor surfaces
- Completely removes extremely adherent and aged coatings
- Intense scouring action: leaves no glossy patches
- Increases in efficiency with soaking times of 20 to 30 minutes — i.e. ideal for use for cleaning in layers
- Extremely quick and efficient dissolving capacity
- No neutralisation required
- High material compatibility
- Concentration: 1:2 to 1:3 (part of TEMPOSTREAM and 2 parts water)

**High-performance cleaner for stoneware**
- For deep-pore basic and routine cleaning of microporous stoneware tiles
- For removal of water-insoluble Stores build-up
- Suitable for preparing floor coverings for initial and subsequent coating
- No need to rinse, dries residue-free

**High-strength basic detergent**
- Suitable for preparing floor coverings for initial and subsequent coating
- Solvent-free
- RK-listed
- Brief application time
- Suitable for manual and machine use
- For deep pore basic and routine cleaning of microporous stoneware tiles

**Heavy duty express-cleaner**
- For all water-resistant, alkali-resistant floor coverings
- Completely removes hard and soft coatings
- Removes stubborn stains
- Very economical
- Concentration: 1:10 (1 part of PUROMAT to 10 parts of water)
**Textile floor coverings/upholstery**

**Dry carpet cleaning**
- For intermediate cleaning of all woolen, synthetic, sisal, loop and woven carpets
- Some cut-thick coverings also suitable for most textilene coverings
- Soluble in water and non-corrosive after cleaning
- Soluble in water and water-soluble stains
- Can also be used to clean just small areas of a carpet
- Dustfree powder carpet cleaner

**Powder cleaning machine**
- Powder cleaning machine with interchangeable brushes
- Stainless steel brush head
- No damage to flooring
- High output capacity
- Easy to use
- Dustfree cleaning action

**Removes water-soluble stains**
- Suitable for all water-resistant woolen and synthetic carpets
- For pretreatment of heavy soiling on carpeting
- Stains well into water-resistant carpets
- Dissolves water-soluble, greasy stains
- Contains surfactants
- Concentration: 10 to 20% (dilute concentrate in water)

**Freezing spray**
- For coconut fat, butter, upholstery, stone, wood and wooden furniture, fabrics, and all non-removable surfaces
- Freezing spray makes it possible to clean with minimum effort
- For removing modelling clay or wax
- Degradable and CHEF-safe, contains no damaging solvents
- Easily removes the frozen residue
- Concentration: use concentrated

**Chewing gum remover**
- Softens and dissolves chewing gum residue
- For use on glue-resistant friction glue, natural and artificial stone and sticky hard floors
- Degradable and CHEF-safe, does not cut
- Ideal for reworking with RAPIDO KAUGUMMJ-EX
- For quick removal of difficult chewing gum residues
- Concentration: use undiluted

**Spray-extraction cleaning**
- For perfect deep cleaning of all water-resistant textile floor coverings using the spray extraction method
- Removes all water-soluble stains
- Biodegradable and non-toxic
- Easy to use
- Quick extraction and easy to work
- No residue left
- For use with all water-resistant textile floor coverings
- Quick extraction and easy to work
- No residue left
- Concentration: 10% (dilute concentrate in water)

**Carpet and upholstery cleaning**
- For all water-resistant and non-water-resistant surfaces, fabrics, upholstery and natural and artificial textile floor coverings
- Also removes all water-soluble stains
- Ideal for use in the DR.SCHNEID RAPIDO carpet extractor system
- Highly effective, no acids, alkalis, oxygen bleach, alcohols, solvents, etc.
- Concentration: use undiluted or diluted up to 20% (dilute concentrate in water)

**Fragrance pellets for all vacuum cleaner types**
- Provides pleasant atmosphere in the home with the scent of fresh lemongrass
- Fragrance pellets for immediate freshness while vacuuming
- Trouble-free disposal with household waste
- Provides a pleasant atmosphere in the room
- For use in all vacuum cleaners
- 2.5 to 5 ml QUICK ENTSCHÄUMER per litre waste-tank volume

**Office cleaning power**
- Removes ink, smear, ink, fat, sticky labels, rubber, permanent marker, waterproof ink, food marks in seconds
- Comes in dry, liquid, and gel forms
- Cuts through in seconds
- Can be applied dry or with a spray
- No rinsing
- Concentration: use undiluted

**Fragrance pallets for all vacuum cleaner types**
- Provides pleasant atmosphere in the home with the scent of fresh lemongrass
- Safe for use with all vacuum cleaners
- Provides a pleasant atmosphere in the room
- Safe to walk on during and immediately after cleaning
- Can also be used on mildew in the home
Room freshness

Biological detergents/deodorisers

Biological detergent and deodoriser
• Eradicates even the most stubborn odours in dustbins, recycling receptacles, waste receptacles, laundry receptacles, skip washing bays and odours from vomit, urine, excrement
• Long-lasting, deep penetrating effect using the 2-phase action mechanism
• Renders bothersome odour molecules harmless
• Destroys the source of origin of the odours
• Fresh mint-eucalyptus fragrance
• Concentration: use undiluted or diluted up to 10 % (dilute concentrate in water)

Carton of 12 x 1 litre bottles

Natural deodoriser
• Ideal for enhancing atmosphere in public areas: Can be used in all rooms, on textiles, upholstered furniture and waterproof surfaces
• Refreshes the air instantly
• Fresh orange-citrus fragrance
• Can be sprayed
• Concentration: use undiluted or diluted up to 10 % (dilute concentrate in water)

Carton of 12 x 1 litre bottles

Air fresheners

Scented concentrate
• Neutralises odours in changing-rooms, sanitary facilities, wet areas, lounges and offices
• Can be sprayed or used with a small amount
• Intense fragrance
• Available in 2 inspiring fragrances
• Concentration: use undiluted

MILI DUFT CARIBIC
Carton of 12 x 200 ml bottles

MILI DUFT ERDBEERE
Carton of 12 x 200 ml bottles

Scented room spray
• Freshens the air in all rooms
• Effectively eliminates unpleasant odours
• Environmentally friendly spray without unpleasant odours
• Concentrated for long-lasting indoor freshness
• Concentration: use undiluted

DUFTSPRAY CITRUS
Carton of 6 x 500 ml bottles

DUFTSPRAY EXOTIC FLAIR
Carton of 6 x 500 ml bottles

Room freshness
• For disguising unpleasant odours
• For all rooms, buildings, halls
• Long-lasting freshness with the scent of fresh oranges
• Effective, even using the smallest amount
• For a pleasant indoor ambience
• Concentration: use undiluted

Carton of 6 x 500 ml bottles

Building cleaning
The triple system for industrial kitchen hygiene

DR. SCHNELL ecosystem
- Kitchen hygiene
- Rinse aid for dishwashing machines
- Liquid cleaning agent for dishwashing machines
- Washing-up detergent
- Special cleaners for industrial kitchens and food services
- Grill and oven cleaners
- Immersion cutlery cleaner

Anja Tittes, Chairwoman of the (German) Association of Food Inspectors

The 3 special cleaners for perfect kitchen hygiene have been expressly recommended as professional cleaning products by the German Association of Food Inspectors.
Kitchen hygiene

Rinse aid for dishwashing machines

- Awarded with the seal of the European Union (EU Ecolabel) as well as the NORDIC SWAN label
- Stainless steel, glass-free dishes
- Suitable for kitchen, dishwasher accessories and glasses
- Balanced combination of netted and foam-braking substances
- Automatic dosage: 0.1 up to 0.4 g/l

Carton of 12 x 1 l bottles order No. 36944
Carton of 20 l order No. 36940

Liquid cleaning detergent for dishwashing machines

- Awarded with the seal of the European Union (EU Ecolabel)
- For all water and alkali-resistant surfaces and floors in professional kitchens and food-processing establishments
- Free of perfume, chlorine and phosphate
- Optimises wastewater because of the oil stripper through rapid emulsification removal
- Concentration: 0.1 to 10 % (dilute concentrate with water)

Carton of 12 x 1 l bottles order No. 36904
Canister of 10 l order No. 36907
Canister of 20 l order No. 36908

Ecological cleaning agent for commercial dishwashing machines

- Awarded with the seal of the European Union (EU Ecolabel) as well as the NORDIC SWAN label
- Powerful against baked-on products and starch
- Very good dishwashing results with coffee and tea stains
- Free of chlorine
- Suitable for all levels of water hardness
- Automatic dosage: 1.5 to 3.5 g/l

Canister of 12 l order No. 36937
Canister of 25 l order No. 36938

Washing-up detergent

Ecological dishwashing liquid

- Awarded with the seal of the European Union (EU Ecolabel)
- Cleans dishes, glasses, cutlery etc. thoroughly and gently
- Very mild to the skin
- Fragrance-free
- Especially economical as it is highly concentrated
- Concentration: 0.1 to 1 % (dilute concentrate with water)

Carton of 12 x 1 l order No. 36924
Canister of 10 l order No. 36927
Canister of 20 l order No. 36928

Ecological oil and fat solvent for the kitchen area

- Awarded with the seal of the European Union (EU Ecolabel)
- For all water and alkali-resistant surfaces and floors in professional kitchens and food-processing establishments
- Free of perfume, chlorine and phosphate
- Optimum solubility because of the oil stripper through rapid emulsification removal
- Concentration: 0.1 to 10 % (dilute concentrate with water)

Carton of 12 x 1 l bottles order No. 36904
Canister of 10 l order No. 36907

Ecological limescale remover for the kitchen area

- Awarded with the seal of the European Union (EU Ecolabel)
- Efficiently removes limescale
- For all water and alkali-resistant surfaces and floors in professional kitchens and food-processing establishments
- Free of hydrochloric acid, acetic acid and phosphoric acid
- Concentration: 0.25 to 10 % (dilute concentrate with water)

Carton of 12 x 1 l bottles order No. 36914
Canister of 10 l order No. 36917
Special cleaners for industrial kitchens and food services

Neutral oil- and grease solvent
- HACCP marketability certified
- Highly effective due to the special soft foam formulations
- Safe to use in the spray bottle with flexible spray nozzle
- Concentration: 0.5 % to 1 % (dilute concentrate with water)

Carton of 6 x 500 ml bottles incl. 6 spray-pumps

Cleaner for convection ovens and combi steam ovens
- HACCP marketability certified
- For automatic dosage systems only
- Heavy-duty foam cleaner

Carton of 12 x 1 litre bottles

Metal, varnish and synthetic material cleaner with surface protection
- HACCP marketability certified
- Suitable for cleaning stainless steel, stainless steel surfaces
- High efficiency due to special soft foam formulations
- Safe to use in the spray bottle with flexible spray nozzle

Concentrate: 2 to 50 % (dilute concentrate in water)

Carton of 2 x 5 litre canisters

Grill and oven cleaners

Intensive power cleaner against burned in substances
- HACCP marketability certified
- For highly effective cleaning of heavily soiled equipment
- Optimal for use in the DR.SCHNELL Foam Cannon
- Concentration: use undiluted

Carton of 2 x 1 litre bottles, spray attachment and nozzle extension

Heavy-duty cleaner
- HACCP marketability certified
- For highly effective cleaning of heavily soiled equipment
- Safe to use in the spray bottle with flexible spray nozzle
- Concentration: use undiluted

Carton of 2 x 1 litre bottles, spray attachment and nozzle extension

Immersion cutlery cleaner

Immersion cutlery cleaner
- HACCP marketability certified
- Suitable for cleaning stainless steel surfaces
- Concentration: 0.5 % to 1 % (dilute concentrate with water)

Carton of 2 x 5 litre canisters

Silver cleaning and care
- HACCP marketability certified
- For highly effective cleaning of silver and silver-plated articles
- Concentration: use undiluted

5-litre container

Metal surface protection
- HACCP marketability certified
- For easy and quick application
- Concentration: use undiluted

Carton of 1 x 500 ml bottle 6 spray-pumps

Kitchen hygiene

Recommended: may be applied

Do not apply:

Equipment
- Dishwashing: stainless steel surfaces
- Extractor hood, dishwasher, kitchen cabinets

Manually
- Automatic dishwashing
- Manufacturing plants, meat-cutting plants, slaughters

All surfaces: tiled floors, tiled walls
Tableware

Washing-up liquids
- Liquid detergents for dishwashers
- Powder detergents for dishwashers
- Detergent intensifiers for dishwashers
- Rinsing agents for dishwashers

Washing-up detergents
- HACCP marketability certified
- Cleans thoroughly, gentle to the hands
- Brillant cutlery without cloth drying
- Leading-edge product for leading-edge results
- Especially economical thanks to its brilliant formulation
- Concentration: use undiluted or diluted up to 0.25 % (dilute concentrate in water)

Universal cleaner and detergent
- HACCP marketability certified
- For manual glass, cutlery, tableware and surface cleaning
- Removes greasy and oily stains and food residues with ease
- Food-grade formulation, contains no colourants, neutral fragrance
- Gentle to the skin
- Suitable for all materials
- Concentration: use undiluted or diluted up to 0.5 % (dilute concentrate in water)

Tableware detergent with chlorine for high water hardness
- HACCP marketability certified
- Removes the most stubborn stains
- Optimum results for coffee and tea residues
- Ensures hygienically clean results
- Excellent results for starch and protein deposits
- Automatic dosage: 1.5 to 3.5 g/l

Liquid, highly alkaline chlorine- and phosphate-free dishwashing detergent for commercial dishwashers
- HACCP Marketing Certificate available
- Removes the most extreme starch and protein soiling
- Excellent dishwashing results for coffee and tea residue
- Secures perfect dishwashing results
- Only for soft water
- Automatic dosage: 2.0 to 3.5 g/l
Liquid detergents for dishwashers

Eco-friendly dishwashing detergent for average water hardness
- HACCP Marketing Certificate is available
- Chlorine and phosphate-free
- Removes the most stubborn dirt
- Secures perfect dishwashing results
- Automatic dosage: 1.5 to 3.5 g/l

12 kg bucket | order No. 36005
25 kg bucket | order No. 36031

Environmentally friendly tableware detergent for very high water hardness
- HACCP Marketing Certificate is available
- Chlorine and phosphate-free
- Removes stubborn starch and protein soiling and sustainably prevents their development
- Excellent dishwashing results for coffee and tea residue
- Automatic dosage: 1.5 to 3.5 g/l

12 kg bucket | order No. 36036
25 kg bucket | order No. 36023

Environmentally friendly tableware detergent with aluminium-protect-system
- HACCP Certificate is available
- Excellent material compatibility due to Aluminium-Protect-Formula for aluminium and silver
- For problem-free cleaning results
- Suitable for all levels of water hardness
- Chlorine-free, so environmentally friendly
- Automatic dosage: 1.5 to 3.5 g/l

12 kg bucket | order No. 36119

Dishwashing detergent for commercial glass dishwashers
- HACCP Marketing Certificate is available
- Removes lime and mineral staines
- Excellent dishwashing results for coffee and tea residue
- Secures perfect dishwashing results
- Automatic dosage: 1.5 to 3.5 g/l

12 kg bucket | order No. 36036

Powder detergents for dishwashers

Cleaner with ultra power formula for commercial dishwashers
- HACCP Marketing Certificate is available
- Removes the most extreme starch and protein soiling
- Excellent dishwashing results for coffee and tea residue
- Secures perfect dishwashing results
- Use in multiple tank dishwashers
- Automatic dosage: 0.8 to 2.0 g/l

Carton of 4 x 3 kg cartridges | order No. 00362

Powdery cleaner with active oxygen for the highest standards
- HACCP Marketing Certificate is available
- Highest performance against baked on products and starch
- Special active oxygen formula for tea and coffee stains
- With special defoamer system
- For perfect cleaning results

Carton of 4 x 3 kg cartridges | order No. 00365

Powder tableware detergent for household dishwashers
- HACCP marketability certified
- Clean results
- Gentle detergent for all tableware and cutlery
- Especially gentle on the machine and the tableware
- Best results for strong tea and coffee residues
- Manual dosage: see dishwasher manufacturer’s information

5 kg bucket | order No. 00176

Kitchen hygiene
Powder detergents for dishwashers

4 in 1 dishwasher tabs with active oxygen
- HACCP marketability certified
- Detergent + rinsing agent + salt function + glass protection in one
- Suitable for cleaning silverware
- Effectively removes all stains
- Best results for strong tea and coffee residues
- Manual dosage: 1 tab per rinse cycle

Carton with 200 x 20 g tabs

Cleaning tabs for commercial dishwashers
- HACCP marketability certified
- For all commercial under-table and small single-tank machines
- Best-expectation results
- Easily cleans stainless steel and cutlery
- Best results with intense tea and coffee residues
- Manual dosage: 1 tab lasts for up to 5 rinse cycles

Carton with 5 packages with 40 x 20 g tabs

Detergent intensifiers for dishwashers

Basic tableware detergent
- HACCP marketability certified
- For basic tableware cleaning by machine
- Also removes solid starch build-up and intense coffee and tea residues
- Ideal for high-grade metal protection
- For use in all industrial dishwashers
- Manual dosage: 10 g PEROTEX GR CONC to 1 litre of water

10 kg bucket

Alkaline cleaning booster
- HACCP Marketing Certificate is available
- Prevents additional chaff from remaining heavy stock and protein deposits
- Especially suitable when using tablet systems
- Sustainably prevents streaks
- Especially suitable when using in the DR.SCHNELL PERO POWER SYSTEM
- Automatic dosage: 1.5 to 3.5 g/l

20 kg bucket

Active oxygen containing cleaning booster
- HACCP Marketing Certificate is available
- Removes all metal residues, coffee and tea residues
- For perfect cleaning results
- Especially suitable when using in the DR.SCHNELL PERO POWER SYSTEM
- Automatic dosage: 1.5 to 3.5 g/l

30 kg bucket

Alkaline cleaning booster
- HACCP Marketing Certificate is available
- Powerful additional cleaner for removing heavy stock and protein deposits
- Especially suitable when using tablet systems
- Sustainably prevents streaks
- Especially suitable when using in the DR.SCHNELL PERO POWER SYSTEM
- Automatic dosage: 1.5 to 3.5 g/l

25 kg canister

Limescale solvent for dishwashers
- HACCP marketability certified
- For descaling machines and equipment
- Also removes solid limescale
- For use in all industrial dishwashers
- Manual dosage: 50 ml PEROTEX EK to 1 litre of water

10 litre canister

Anti-foam agent for professional dishwashers
- HACCP Certificate is available
- Prevents foam formation in professional dishwashing machines
- Leaves no silicone residue on tableware and in the machine
- Can be combined with DR. SCHNELL dishwashing systems
- For manual and automatic dosage

Carton of 6 x 500 ml bottles

Kitchen hygiene
At DR. SCHNELL, we are oriented toward the three-pillared model for sustainable development, taken from the Brundtland report for the World Commission for the Environment and Development of the United Nations:

Ecological sustainability:
Protecting the environment and natural substances within the scope of production, sales and consumption of our products.

Social sustainability:
Corporate Social Responsibility as support for people in the company and in society as a whole.

Economic sustainability:
Continuous growth based on quality, service, innovation and other factors.

The company of DR. SCHNELL Chemie GmbH has a Quality Management System certified according to DIN EN ISO 9001:2008 for all areas and an environmental management system certified according to DIN EN ISO 14001:2004. In addition, it is environmentally tested to meet the EU Eco-Management and Audit Directive (EMAS II). The production plant is registered in the EMAS environmental site register of environmentally tested companies.

Sustainability
As a modern chemical company, DR. SCHNELL is especially responsible for humanity, the environment and society. Sustainability is vital to us. Our company philosophy: “actions speak louder than words”

Rinsing agents for dishwashers

Neutral rinsing agent for bright and shiny tableware
- HACCP marketability certified
- Suitable for use with high water hardness
- Also suitable for all household appliances as well as for automatic ovens and circle steam ovens
- Absolutely neutral flavor
- Suitable for use on most surfaces, particularly on decor and glasses
- Automatic dosage: 0.2 to 0.4 g/l

Universal acidic rinsing agent
- HACCP marketability certified
- Brilliant shine even with high water hardness
- Also suitable for all household appliances as well as for automatic ovens and circle steam ovens
- Absolutely neutral flavor
- Suitable for use on most surfaces, particularly on decor and glasses
- Automatic dosage: 0.2 to 0.4 g/l

All features at a glance
- Recommended for ribbon and rack type machines, hood type machines
- Suitable for aluminum
- Area of water hardness: chlorine-free, phosphate-free

Surface disinfection

Instrument disinfection/preparation

Disinfection

Acidic surface disinfectant cleaner for hospitals, therapy pools and sanitation facilities*

- Biocidal and cleaning of all acid-resistant surfaces
  - pH drops to 2 %
  - Effective against poliovirus and legionella
- Basic and maintenance cleaning of sanitary and swimming facilities
- Excellent disinfection of normal viruses such as influenza, numerous organs such as salmonellae
- Concentration: German Association for such as Hygiene (VAH): 2.0 % 15 min; 1.5 % 30 min; 1.5 % 60 min
  (less contaminated with mechanics)

Carton of 12 x 1 litre bottles
Order No. 00136

10 litre canister
Order No. 30091

Lipid surface disinfectant cleaner concentrate for hospitals and surgeries*

- Universal use in cleaning and disinfecting
  - Particularly suitable for medical facilities
  - For all water-resistant surfaces and floors
  - Strong dirt, grease and protein-dissolving capacity
  - Aldehyde, chlorine-free
- Application concentration: RKI: 2 %, soaking time: 15 min; 1.5 % soaking time: 60 min
  (less load with mechanics)

Carton of 12 x 1 litre bottles
Order No. 00138

Carton of 12 x 1 litre measuring bottles
Order No. 00505

10 litre canister
Order No. 20507

Lipid surface disinfectant cleaner concentrate for the food industry*

- HALT Marketability certified
- Universal disinfectant cleaner for cleaning waterproof surfaces, equipment and machines in industrial kitchens and food preparation facilities
- Recommended by the German Association for Food Inspectors
- Fulfills the requirements in compliance with EN 1276, EN 1650 and EN 13697
- Outstanding grease, protein and dirt-dissolving power
- Aldehyde- and chlorine-free
- Clean and dirty conditions (EN 1276, EN 1650, EN 13697):
  - 3 % 30 min; 4 % 15 min; 5 % 5 min

Carton of 12 x 1 litre bottles

Carton of 12 x 1 litre measuring bottles
Order No. 00505

10 litre canister
Order No. 20507

*Use biocides safely. Always read the label and product information before use.
Surface disinfection

**Surface disinfectant cleaner for hospitals, retirement homes and the food industry**

- Limited antiviral action
- Inactivates all enveloped viruses and effective against noroviruses, adenoviruses, parvoviruses and polyomaviruses
- Bactericidal (incl. MRSA), tuberculocidal and yeasticidal action
- Contains no aldehydes or phenols
- Suitable for all unheated bedpan washers
- Disinfection VAH (Association for Applied Hygiene): 1.0 %, 5 min; 0.75 %, 15 min; 0.5 %, 30 min; 0.25 %, 240 min (dirty conditions, with mechanical action); 0.25 %, 5 min (clean conditions, 20 °C, clean conditions; 0.25 %, 5 min

- Contaminated: 0.25 % (clean conditions)

- Contains: Enzymes, Quats, Quats, Alcohols

- CAUTION: Use only with mechanical action

- *Use biocides safely. Always read the label and product information before use.

**Quick alcohol disinfection**

- Disinfects all areas where rapid application and drying time is needed, residue-free
- For sensitive areas in the kitchen where food is processed
- Limited antiviral action, effective against noroviruses
- Suitable for day-to-day disinfection
- Desinfection: 100 % (undiluted)

**Wipes for fast disinfection**

- Ready-to-use wipes for quick, hygienic pre-cleaning
- The label of DESIFOR-QUICK PLUS WIPES is listed according the Association for Applied Hygiene (VAH)

**Surface disinfectant cleaner for routine disinfections in case of epidemics**

- Bactericidal (incl. MRSA), tuberculocidal and yeasticidal action
- Effective against noroviruses (FCV) and paroviruses
- Inhibits the germination of spores
- Contains aldehydes
- Disinfection VAH (Association for Applied Hygiene): 2.0 %, 15 min (dirty conditions, with mechanical action); RKI (A/B) (Robert Koch Institute): 7.0 %, 4 h

**Disinfectant for instruments and endoscopes**

- Bactericidal (incl. MRSA, hospital), tuberculocidal and yeasticidal action
- Limited antiviral action
- Inactivates all enveloped viruses
- Suitable for all sterilization techniques and ultrasonic equipment
- Contains no aldehydes, phenols, QACs
- Aldehyde-free
- Desinfection VAH (Association for Applied Hygiene): 2.0 %, 30 min (dirty conditions)

**Rinsing agent for heated bedpan washers**

- Guarantees streak-free rinsing
- Protects bedpan washers from calcification
- Low foam, environmentally friendly formulation
- Suitable for all materials
- Specifically created for automatic dosing
- Suitable for all water hardnesses

---

*Use biocides safely. Always read the label and product information before use.
Textile hygiene

Complete disinfectant detergents
Laundry detergents

PRIMA liquid washing system – automatic dosage
RAPA liquid washing system – manual dosage

Phosphate-free, disinfectant powder detergent, zeolite-free*
- RKI-listed, department A/B, acts bactericidal, mycobactericidal, fungicidal (including fungal spores), virucidal
- Cleans, disinfects and bleaches in one wash cycle
- For all bleachable fabrics except wool and silk
- Free of zeolites, therefore ideal for mops/dust covers and microfiber fabrics
- Excellent fibre and fabric protection due to selected additives
- Phosphate-and boron-free detergent disinfectant
- High efficiency factor due to minimal amounts used
- Eliminates unpleasant odours through active peracid
- Application concentration: dependent on water hardness, degree of soiling and nature of the textiles.

For details, please refer to our product information sheets.

20 kg bag
order No. 60419

Disinfecting heavy-duty detergent*
- Excellent washing performance and stain removal ensured by a special formulation
- Pleasant fresh scent
- Selected active substances guarantee excellent fibre protection
- Disinfection conformity with VfH
- Excellent safety during every dosing set
- Very high economic efficiency ensured by concentrated formulation
- Very well suited for cleaning textiles

12 kg bag (available from 2016)
order No. 60421
20 kg bag
order No. 60420

Disinfectant from 40 °C*
- VAH-listed
- Applied for RKI listing (A/B)
- Chlorine-free
- Not suitable for wool and silk
- Application concentration: depending on water hardness, degree of soiling and nature of the textiles.

For details, please refer to our product information sheets.

3,6 kg bucket
order No. 61038

Laundry detergents

Complete laundry detergent
- For white and coloured clothes
- Excellent results, even at low washing temperatures
- For all washing machines up to 25 kg
- Very high yield, for household and industry
- Phosphate-free
- Application concentration: depending on water hardness, degree of soiling and nature of the textiles.

For details, please refer to our product information sheets.

6,5 kg carrying box
order No. 60112
20 kg bag
order No. 60120

*Use biocides safely. Always read the label and product information before use. ** Filed for RKI listing

Complete laundry detergent
- For white and coloured clothes
- Excellent results, even at low washing temperatures
- For all washing machines up to 25 kg
- Very high yield, for household and industry
- Phosphate-free
- Application concentration: depending on water hardness, degree of soiling and nature of the textiles.

For details, please refer to our product information sheets.

6,5 kg carrying box
order No. 60212
20 kg bag
order No. 60220
**Laundry detergents**

**Heavy duty detergent**
- Heavy-duty detergent for perfect cleaning
- For all temperatures ranging from 30 to 95 °C
- For all applicable fabrics
- Households and commercial use
- For all washing processes
- Extremely economical
- Adjusted content depending on water hardness, degree of soiling and nature of the textiles.

For details, please refer to our product information sheets.

20 kg bag

**Coloured and light-duty detergent for gentle cleaning of delicate fabrics**
- Used for the treatment of temperature-sensitive delicate laundry, due to an excellent washing effect already at 40 °C
- Prevents yellowing and greasing over at low temperatures
- Gentle on fibres and colours, since it is free from bleaching agents and optical brighteners
- Biologically fine
- For the chemothermally treated textiles, according to VAH at 60 °C (exclusively) registered in combination with PRIMA OXY
- Not suitable for wool and silk

20 kg canister

**PRIMA liquid washing system – automatic dosage**

**Special washing agent for cleaning textiles**
- Best cleaning results at low product consumption
- Prevents deposition and thus prevents greying as well as damage (such as fibre fracture) of the textiles
- For chemothermally treated textiles
- Especially for fibres with high water absorption
- Not suitable for wool and silk
- Free of phosphates

20 kg canister

**Single detergent for white and coloured laundry**
- Excellent cleaning effect, even for very dirty laundry and microfibre fabrics and laminates
- Excellent soil release and soil carrying capacity
- Phosphate free
- High fibre and colour protection
- RKI listing in combination with PRIMA OXY, A/B range, free of biocides, mycobactericide, fungicide, including fungal spores, microbial effect
- For the chemothermally treated textiles, according to VAH at 60 °C (exclusively) supplied in combination with PRIMA OXY
- Not suitable for wool and silk

20 kg canister

**Coloured and light-duty detergent for gentle cleaning of delicate fabrics**
- Used for the treatment of temperature-sensitive delicate laundry, due to an excellent washing effect already at 40 °C
- Prevents yellowing and greasing over at low temperatures
- Gentle on fibres and colours, since it is free from bleaching agents and optical brighteners
- Phosphate free
- High fibre and colour protection
- RKI listing in combination with PRIMA OXY, A/B range, free of biocides, mycobactericide, fungicide, including fungal spores, microbial effect
- For the chemothermally treated textiles, according to VAH at 60 °C (exclusively) registered in combination with PRIMA OXY
- Not suitable for wool and silk

20 kg canister

**Optical brightener for white laundry**
- Optical brightener gives white laundry a radiant white look
- Liquid to improve the degree of whiteness
- Suitable for all white textiles made of cotton and mixed fibres
- Active at low temperatures already, for a temperature range of 40 to 90 °C
- Can be used with all protein detergents and is suitable especially for combination with brightener-free products

20 kg canister

**Detergent booster**
- Reduces excessive brightness of otherwise bright laundry
- Effective in low concentrations with outstanding soil-release and soil carrying capacity
- Ideally suited for the combination with products of the PRIMA SYSTEM
- Phosphate free

20 kg canister

**Weal and mild detergent**
- Concentrated liquid detergent for wool and fine fabrics
- Special surfactant system for excellent washing performance of wool and gentle properties of natural fibres in its free of bleaches
- Very soft grip and excellent colour retention
- Characteristic fresh scent

20 kg canister

**Prima liquid washing system – automatic dosage**

**Liquid bleach and disinfectant concentrate**
- Use biocides safely. Always read the label and product information before use.

20 kg canister
PRIMA liquid washing system – automatic dosage

**Fat solvent**
- Liquid phosphate-free grease solvent with a novel and special principle of action to remove extreme grease stains at low temperatures
- Use in low temperature range of 35 to 40 °C
- Especially designed for use in the kitchen areas for express and professional clothing and in health care
- Paraben and phenoxyethanol free
- Foam reduced

20 kg canister  order No. 60056

**Liquid high-performance water softener**
- Powerful high water hardness reduction
- Compaction of heavy metals (zinc, manganese, copper)
- Ideally suited for the combination with products of the PRIMA SYSTEM

20 kg canister  order No. 60055

**Softener**
- Machine application for a pleasant grip and high wearing comfort
- For super soft laundry
- With summer breeze fresh fragrance
- For a pleasant grip and high wearing comfort
- Reduces formation of creases
- For soft laundry

20 kg canister  order No. 60054

RAPA liquid washing system – manual dosage

**Liquid softener for extra high wearing comfort**
- For soft laundry with summer breeze fresh fragrance
- For a pleasant grip and high wearing comfort
- Reduction of static charging of textiles
- Reduction of formation of creases

Carton of 3 x 3 litre bottles  order No. 60027

**Concentrated liquid detergent for coloured fabrics**
- Ideal for the preparation of temperature-sensitive textiles because a very good washing effect is achieved at 40 °C already
- Colours can brighten longer as they are free from bleaching agents and optical brightener
- Brilliant green and gentle contamination even at low temperatures
- Free of phosphates
- Not suitable for wool and silk

Carton of 3 x 3 litre bottles  order No. 60004

**Liquid detergent for dark and black fabrics**
- Prevents the dreaded blacking as well as fading of dark textiles
- This special formulation freshens up the colours during the washing cycle
- High gentleness to fibres, high washing effects as well as high dirt dispersing capacity
- Free of phosphates
- Not suitable for wool and silk

Carton of 3 x 3 litre bottles  order No. 60005

**Concentrated liquid detergent for wool and fine fabrics**
- Special formulation to prevent felting and pilling of wool
- Special surfactant system for excellent washing performance at mild and gentle pretreatment of natural fibres
- Liquid detergent for gentle treatment of wool and fine fabrics
- For soft grip and excellent colour retention
- Prevents the formation of creases
- Foam-free bleach, optical brighteners, phosphates

Carton of 3 x 3 litre bottles  order No. 60003

**Stain remover powder**
- For the perfect removal of very difficult grease and food leftovers - including curry stains
- Active at low temperature already
- With active oxygen
- Direct action in case of combined use with any heavy duty detergents
- Suitable for white and coloured wash (without wool and silk)

Bucket of 3 litres  order No. 60007

**Liquid detergent for white fabrics**
- Mix for wet cleaning of sensitive textiles on account of high fibre protection
- High washing performance as well as high dirt dispersing capacity
- Optical brighteners for brilliance white
- Deodorant with fresh scent
- Not suitable for wool and silk

Carton of 3 x 3 litre bottles  order No. 60006

**Concentrated liquid detergent for white fabrics**
- Mix for wet cleaning of sensitive textiles on account of high fibre protection
- High washing performance as well as high dirt dispersing capacity
- Optical brighteners for brilliance white
- Deodorants with fresh scent
- Not suitable for wool and silk

**Skin Protection with changing agents**
- For water-soluble and water-insoluble agents (water, oil, alcohols)
- Neutral effecting ingredient
- Recommended for work in the paper and textile industries
- Absorbs quickly
- With dodecane and sunflower oil
- Evidence of efficacy exists (ISO test)

**Skin Protection cream for fingerprint-free work**
- For all work causes where fingerprinting is inevitable
- Suitable for work in the food industry
- Ideal for working with greasy sensitive materials
- Protects skin from industrial dust
- Absorbs quickly
- Evidence of efficacy exists (ISO test)

**Skin protection gel when working with gloves**
- Wash before putting on gloves
- Skin does not soften under the glove
- Contains alcohol
- Absorbs quickly
- Non-emulsion
- With essence of chestnut and sage
- Suitable for work in the food industry
- Evidence of efficacy exists (ISO test)

**Skin cleansing for light soiling**
- For all light soiling
- Mild cleansing power
- Ideal for administrative facilities and offices
- Suitable for normal skin
- Strengthens the protective acid mantle of the skin

**Washing gel for gentle cleansing of sensitive skin**
- For all light soiling
- With essential oils
- Particularly recommended for the food industry
- Can also be used as a shower gel

**Skin cleansing, also for showering, for light soiling**
- For all light soiling
- With glycerine
- With moisture complex
- Can also be used as a shower gel
- Particularly recommended for the food industry
- Suitable for sensitive skin

**Hand cleaner containing abrasives**
- Removes intense dirt (through oil, grease, metal dust, etc.)
- Gentle to skin — powerful against dirt
- Excellent cleansing power
- Contains gel-powder abrasives (very fine)
- Very gentle to the skin

**Skin protection, cleansing & care**

### Skin cleansing

**Skin friendly dispenser soap**
- For all light soiling
- Gentle for the skin, pleasant hand washing letter
- Suitable for all refillable dispensers
- Economical consumption
- Pleasing fragrance

*10 litre canister* order No. 00295

**Dispenser soap**
- For all light soiling
- Especially pleasant skin sensation
- Suitable for all refillable dispensers
- Highly concentrated
- Selectively scented
- Fine foam

*10 litre canister* order No. 00297

### Skin care

**Skin care for dry, chapped hands**
- High maintenance care
- Moisturizes quickly
- With vitamins and glycerine
- Last suitable for the face
- For chapped skin

*Carton of 12 x 100 ml tubes* order No. 00594
*Carton of 12 x 1,000 ml bottles for V10 dispenser* order No. 00597
*Carton of 10 x 1,000 ml bottles for W* order No. 00598

**Skin care cream for extremely stressed skin**
- Moisturizes quickly, no oily residue
- High level care
- Absorbs quickly, no oily residue
- Regenerates damaged skin

*Carton of 12 x 100 ml tubes* order No. 00403

### Hygienic hand washing*

- **Hand disinfection**
  - Biocidal against enveloped viruses (incl. HBV, HIV, HCV)
  - Virucidal against enveloped viruses (incl. HBV, HIV, HCV)
  - Yeasticidal, tuberculocidal
  - Bactericide

*Carton of 6 x 1,000 ml bottles for V10 dispenser* order No. 00528
*Carton of 6 x 1,000 ml bottles for F10 dispenser* order No. 00527

### Alcohol-based solution for hand disinfection**

- Hygienic and surgical hand disinfection and skin disinfection (sebaceous gland low/rich skin)
- Alcohol-based containing Methylsalicylate, salicylic acid
- Yeasticidal, tuberculocidal
- Bactericide

*Carton of 10 x 1,000 ml bottles for W* order No. 00802
*Carton of 10 x 1,000 ml bottles for W all-dispenser* order No. 00566

### Skin protection, cleansing & care

- 2-propanol 70% v/v solution, App. No.: 1599 08 99
- Composition: 100 g of solution contains: Active ingredient 2-propanol 63.1 g. Other constituent Purified water.
- Fields of application: Hygienic and surgical hand disinfection, skin disinfection before simple injections and punctures of peripheral vessels, skin disinfection before surgery and punctures of joints, disinfection of skin rich in sebaceous glands, cold compresses.
- Contraindications: Is not suitable for disinfecting open wounds. Side effects: When rubbing into the skin, redness and slight burning sensations may occur. Warnings: Flammable! Keep away from ignition sources. Store tightly sealed. After spilling the solution, immediate measures to prevent fires and explosions must be initiated. Appropriate measures include picking up the spilled liquid and diluting it with water, ventilating the room and eliminating ignition sources. Store medicines away from children. Do not use after the expiration date. Read the package insert and ask your doctor or pharmacist for any risks and side effects.
- Status: 19 September 2012
- Pharmaceutical companies: DR. SCHNEIDEL Chemie GmbH, Tausenstraße 19, 81827 Munich

- Fields of application: Hygienic and surgical hand disinfection, skin disinfection before simple injections and punctures of peripheral vessels, skin disinfection before surgery and punctures of joints, disinfection of skin rich in sebaceous glands, cold compresses.
- Contraindications: Is not suitable for disinfecting open wounds. Side effects: When rubbing into the skin, redness and slight burning sensations may occur. Warnings: Flammable! Keep away from ignition sources. Store tightly sealed. After spilling the solution, immediate measures to prevent fires and explosions must be initiated. Appropriate measures include picking up the spilled liquid and diluting it with water, ventilating the room and eliminating ignition sources. Store medicines away from children. Do not use after the expiration date. Read the package insert and ask your doctor or pharmacist for any risks and side effects.
- Status: 19 September 2012
- Pharmaceutical companies: DR. SCHNEIDEL Chemie GmbH, Tausenstraße 19, 81827 Munich
Disinfection of skin and hands

Hygienic hand disinfection*

• Hygienic hand disinfection
• Bacitracin (including MRSA, vancomycin-resistant Enterococci)
• Virucidal against enveloped viruses (incl. HIV, HCV)
• Antimicrobial against other microorganisms

* With the frequency of the application and appropriate skin care measures. The skin care measures have to be intensified when the first irritations occur. If side effects occur which have not been mentioned, please inform your doctor or pharmacist.

Side effects:
• Skin irritation (redness, itching), and in case of highly frequent application further skin reddening with surface defects may result. The extent and degree of severity of these appearances depend directly with the frequency of the application and appropriate skin care measures. The skin care measures have to be intensified when the first irritations occur. If side effects occur which have not been mentioned, please inform your doctor of pharmacist.

Interactions:
None known.

Contraindications:
• Do not use in case of hypersensitivity against one of the ingredients. Do not apply to mucous membranes or open wounds.

Alcohol hand disinfection, hygienic and surgical **

• Bactericidal (including myco-bacteria), fungicidal
• Virucidal
• EU-listing, A/B range
• Halal

** Alcosyn 10 g/57.6 g per 100 mg fluid to be applied to the skin

Disinfectant/antiseptic agent. Solution. Approval No.: 2546.00.00
Composition: 100 g of solution contains: medically active ingredients: 50 g of propylene glycol, 20 g of purified water. Applications: Hygienic hand disinfection. Bactericidal (incl. TB Mycobacterium tuberculosis), fungicidal, limited virucidal. Side effects: Skin irritations (dryness) can especially occur with frequent use. In this case, the skin protection measures should be reinforced. Contact allergies are also possible. In the event of side effects not listed, please inform your physician or pharmacist. Interactions: None known. Combinations: Do not apply in case of hyper-sensitivity to any of these ingredients. Do not apply on mucous membranes. Warnings: Flammable. Keep away from ignition sources. Store tightly closed and away from heat! Do not smoke when using. After spilling the disinfectant, immediate measures to prevent fires and explosions must be taken. Appropriate measures, for example, are absorbing the solution, diluting with water, ventilating the area as well as removing ignition sources. Decanting should only be performed under aseptic conditions (laminar flow).

Side effects:
• Wool wax may cause locally limited skin reactions (such as contact dermatitis); propylene glycol may cause skin irritations. Warnings: Flammable. Keep away from ignition sources! Store tightly closed and away from heat! Do not smoke. Do not swallow or permit to get into blood circulatory system. Do not inhale or permit to get into respiratory system. Do not dispose of in domestic waste. Do not pour residues into the sink or WC; take it to the designated collection points for problematic materials or special waste collectors. Store pharmaceutical materials out of reach of children. Do not use beyond the expiration date. Refer to the package leaflet for risks and side effects and consult your doctor or pharmacist.

Accessories

SBA Quick-fill 120
- Makes filling scrubber dryers and automatic cleaning machines easy
- Removal volume: up to 120 litres of pre-mixed cleaning solution
- Larger tank sizes available on request

DR. SCHNELL Foam cannon
- For the most economical detergent usage and the best cleaning performance
- Appliance volume: 3 litres

Pressure-sprayer neutral
- Suitable both for whole surface and for spot cleaning
- Appliance volume: 1.5 litres

Spray bottle neutral
- Suitable both for whole surface and for spot cleaning
- Appliance volume: 600 ml

Carton of 12 x 600 ml bottles (container only)

Mini dispenser
- Economical dosage from the DR. SCHNELL 1 litre bottle
- 5 to 20 ml of product per stroke

Dispenser for 1 litre bottle
- Economical dosage specifically for DR. SCHNELL 1 litre bottle
- 2.5 or 4 ml of product per stroke

Dispenser for 500 ml eurobottles
- Economical dosage, specifically for 500 ml eurobottles
- 4 ml of product per stroke
## Accessories

### Dispenser for 10 litre canister
- Measured dosage, specifically for 10 litre canister
- 20 ml of product per stroke

### DR.SCHNELL Industrial wall dispenser
- Dispensing system for hygienic and economical product removal
- No contamination
- Variable for 2,000 ml soft bottles
- Drip tray for container, lockable
- 2 ml of product per stroke

| Each | order No. | 80371 |

### RAPIDOMAT Pro MX Dosage unit
- For stationary mixing and filling of ready-to-use application solution
- Crease resistant pipe for ease of use with products
- Bottles and bucket of filling搞得
- System operates without auxiliary power, only with water pressure
